

## **\*SECTION 12 - PLANNED UNIT DEVELOPMENT OR "PD" DISTRICT**

\*\* 12.1 PURPOSE - This district is designed to accommodate various types of development, such as single-family residential developments, multiple housing developments, neighborhood and community shopping centers, mixed-use developments, professional and administrative areas, commercial service centers, industrial parks, and other uses or a combination of uses which can be made appropriately a part of a Planned Unit Development. The district is established to allow flexibility of design, in accordance with the objectives and spirit of the General Plan. This District also provides for Administrative Amendments to Detailed Development Plan Approvals by the Director of Community Development for minor additions/projects provided the findings in Section 12.12 can be made in the affirmative.

12.2 ESTABLISHMENT OF PD DISTRICTS - PD Districts may be established or removed from the Zoning Map upon the application of a property owner or owners, or upon the initiative of the City Council or Planning Commission, in accordance with the procedures set forth in Section 16 of this Ordinance.

12.3 CONCEPTUAL DEVELOPMENT PLAN REQUIRED - An application for the establishment of a PD District shall be accompanied by a Conceptual Development Plan which, if approved by the Planning Commission and City Council, shall become a part of the Zoning Map of the City of Belmont.

A. Said Conceptual Development Plan shall show the following information presented in a schematic form and at a scale satisfactory to the Zoning Administrator with a reduced reproducible print of the approved drawing suitable to the Secretary of the Planning Commission for publication purposes:

- 1) Proposed land uses.
- 2) Location of buildings, structures and building groups.
- 3) A tabulation of proposed dwelling unit density in residential areas.
- 4) A tabulation of floor area ratios and the maximum heights of proposed buildings.
- 5) Proposed circulation systems, including preliminary street cross sections.
- 6) Proposed parks, playgrounds, school sites and other open spaces.
- 7) Location and type of existing and proposed landscaping. Identification of any existing trees to be removed, in accordance with Ordinance No. 424.

\* 11) Proposed off-street parking.

B. The Planning Commission and City Council may require such other information which, combined with the other information submitted, shall be for the purpose of ascertaining substantial conformity with the adopted General Plan of the City of Belmont. The Planning Commission and City Council shall make the following findings in addition to those required in Section 16 of this Ordinance prior to rezoning any property to the PD District:

1) That the total development in each individual unit therein can exist as an independent unit capable of creating an environment of sustained desirability and stability or that adequate assurance will be provided that such objective will be attained; that the uses proposed will not be detrimental to present and potential surrounding uses, but will have a beneficial effect which could not be achieved under other zoning districts.

2) That the streets and thoroughfares proposed are suitable and adequate to carry anticipated traffic and the density will not generate traffic in such amounts as to overload the street network outside the PD District.

3) That any proposed commercial development can be justified economically at the locations proposed, to provide for adequate commercial facilities of the types proposed.

4) That the economic impact created by the PD District can be absorbed by the City (police and fire service, water supply, sewage disposal, etc.)

\* 5) That the proposed off-street parking is in substantial conformance with the provisions of Section 8 of this Ordinance; that where an applicant's proposed off-street parking is less than that set forth by the standards of Section 8 of this Ordinance, circumstances are such that it would be a practical difficulty or create a physical hardship on the applicant for him to conform to the standards of Section 8.

\*\* C. The Planning Commission or City Council may require the submittal of a topographic model of the proposed district to an accurate scale. Both horizontal and vertical scales shall be the same. The scale and detail of the model shall be sufficient to accurately illustrate the appearance of the total final development. The Zoning Administrator shall approve the scale of the model in writing prior to its construction. The following proposed items shall be included on the model:

- (a) Proposed land uses.
- (b) Specified standards of development, including but not limited to circulation of traffic, landscaping and architecture.
- (c) Specific density of said proposal for PD zoning may include any of the items contained in the requirements for a Conceptual Development Plan but shall not require a Conceptual Development as provided in 12.3A above; nor shall the findings in 12.B 1-5 be required to be made.

\*\* 12.3.2 Changes in Conceptual Development Plan shall be considered as changes in the Zoning Ordinance and shall be made in accordance with Section 16 of this Ordinance.

\*\* 12.3.3 Any owner of real property zoned to a PD District by initiative of the City Council or Planning Commission shall, as a prerequisite to development of said property, apply with his Conceptual Development Plan and application for PD District in accordance with the PD District land uses and standards established, therefore by the Planning Commission and City Council in accordance with the provisions of Section 16.

For the purpose of this Section, the cross slope of an area is defined to be the ration expressed as a percentage of the vertical difference in elevation to the horizontal distance between any two points, with the line connecting the two points being essentially perpendicular to the contours between the two points. The Planning Commission shall have the authority to determine the cross slope of an area and shall also have the authority to designate different portions of the District as having different cross slopes.
